Skills

Languages/Technologies: Python, JavaScript (React.js), HTML/CSS/JS, Tailwind CSS, TypeScript, Lua, C, C#

Frameworks/APIs: Node.js, Express, Firebase, Scikit-Learn, Stripe API, Discord API, Gemini/GPT API

Methodologies: Agile (Scrum), Design Thinking, Prototyping, Brainstorming

Soft Skills: Communication, Problem-Solving, Creativity, Adaptability, Collaboration, Leadership

Tools: MS Office (Word, Outlook, Excel, PowerPoint), Figma, Git/GitHub

Experience

Web Developer Intern, Futura Sourcings

May 2024 – Jan. 2025

- Utilized **React.js**, **Typescript** and **Tailwind CSS** to build and test a web-based prototype, **boosting user engagement by 40%**.
- **Improved load times by 30%** through front-end optimizations and collaborated with senior leaders to gather requirements and brainstorm solutions.

Machine Learning Intern, STEM-Away

Jun. 2024 – Sept. 2024

- **Applied design thinking** and **agile methods** to develop a protein-protein interaction model, improving **prediction accuracy by 15%** on a 1.2 million record dataset.
- Optimized data preprocessing pipelines, **reducing training time by 25%**
- **Collaborated** in a **team of 4** to **brainstorm solutions** and prototype new ML workflows.

Software Engineering Fellow, Headstarter.AI

July 2024 – Sept. 2024

- **Engineered** and presented **5** innovative **projects**, including **3 A.I** solutions, from **front-end to full-stack** over **5 weeks**.
- **Implemented Agile sprints** and **prototyping** techniques, collaborating with mentors from **Amazon**, **Capital One**, and **Bloomberg** to incorporate continuous feedback.
- **Developed** a **RAG A.I.** Rate My Professor app in **React** and **Javascript**, an **A.I. flashcard SaaS platform**, and a **customer service chatbot**, demonstrating strong **teamwork** and creative **problem-solving**.

Projects

SproutHacks, Web Technology Lead

Sept. 2022 – June 2026

- **Created, updated, and maintained** the **front-end dashboard** and user authentication system, streamlining participant onboarding for **~300** participants
- **Revamped** the **main site** and **hacker portal**, enhancing **user experience**, **site performance**, and **platform scalability** through optimized front-end architecture

StudyQuest – iOS App, Founder & Lead Developer

Jun. 2024 - Present

- **Implemented** a **React Native** app with **Firebase** backend to gamify studying, letting users track sessions, earn XP, and climb leaderboards with original **UI/UX** Design.
- Developed **profiles**, **user authentication**, rewards, and **community leaderboards**

Education

Sir Wilfrid Laurier C.I., International Baccalaureate Program

Sept. 2022 – June 2026

- Ontario Secondary School Diploma | International Baccalaureate Diploma | 4.0 GPA
